DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1, 9, and 15, there is no antecedent basis for “the seating platform assembly”, in lines 9-10, 12-13, and 15-16, respectively. Further the applicant recites proximal and distal ends of the mounting structure and the seat support post (two sets), respectively, the second occurrence of which makes unclear to which set the applicant refers.

Allowable Subject Matter

Claims 1, 9, and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The following is a statement of reasons for the indication of allowable subject matter: the primary reason is the inclusion of the mounting structure having a mounting chain, and an attachment member that secures the platform retainer of the standing platform and the mounting chain to the mounting structure, the attachment member being connected to the mounting structure, and the seat support post rotatably connected to the support post mount at one end and adjustably received by the support post receiver of the standing platform at its other end. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Art Unit: 3634

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Early #4,549,635, Berkbuegler #6,722,472, Anthony et al #6085868, Fast #6367585, Smith #Re 36,276, and Wilhelm #6,578,913 are cited to teach tree platform assemblies.
